WHO WE ARE

The Alumni Association brings together friends, former employees, and former scholarship holders of the Institute. Its purpose is to promote science and research in the fields covered by the Max Planck Institute for Innovation and Competition.

This purpose is pursued in particular through the organisation, support, and promotion of scientific events and research projects that are open to the public. It is further achieved by promoting scientific publications arising from these events and projects, as well as by supporting publication series related to the Institute's fields of research.

OUR PURPOSE

We keep professional and personal connections alive, welcome diverse perspectives and support scientific events and publications.

MEMBERSHIP AT A GLANCE

Former researchers, scholarship holders, guests and collaborating scientists are welcomed. The network spans countries, disciplines and career paths.

WHAT CONNECTS US

● KNOWLEDGE

Annual conferences, webinars and the Munich Talks connect alumni with current research and debate.

● EXCHANGE

Meet former colleagues and researchers from different countries and career paths.

● COMMUNITY

Support scientific events and publications and help strengthen the Institute's international alumni network.

STAY INVOLVED

Take part in events, reconnect with colleagues and contribute your experience to a growing international community.

YOUR NETWORK

Research opens doors.

Community keeps them open.
